A Home Insurance Company.

The Prairie City Farmer's Insurance Company has been in business several years and has proved a money saver to its patrons as well as furnishing good reliable insurance.

The annual meeting of the company was held at Prairie City on last Saturday, Aug. 2d, and was largely attended by its members.

The object was the election of three directors to serve three years and the annual election of officers. The following gentlemen were elected to serve three years: A. H. De-weese of Hudson twp., George Church of Mt. Pleasant, and John Seelinger of Summit.

The following were elected officers for the ensuing year: President—H. Philbrick. Vice Pres.—C. J. Requa. Secretary—Chris Hirni. Treasurer—John Yoss.

Reports of the officers showed the company to be in splendid condition and reflected credit on the officers and management. The company is now carrying policies amounting to nearly \$500,000, and has a good cash surplus on hand.

It has never yet made an assessment to pay a loss, as the annual assessment of ten cents on the hundred dollars, with the initiation fees received has been sufficient to pay all losses and leave a good surplus now on hand.

Other directors of the company are Jas. H. Raybourn, M. M. Carroll, John Gench, C. J. Requa, John Yoss, C. Hirni and H. Philbrick. With such men at the head of the company it cannot fail to retain the confidence of the people. It is safe and cheap insurance and we learn insurers only farm property.—Bates Co. Record.

Dr. G. N. Sharp.

Last March none of his numerous friends expected to see Mr. J. T. Pritchard ever leave his home alive. He had tried all the remedies he could that promised relief, but all to no purpose and the end of life seemed to be near at hand.

His family finally concluded to employ Dr. Sharp who is an eclectic physician, and the wisdom of their conclusion is shown in the fact that Mr. Pritchard is alive and improving right along. Is now able to be out and about, all due to the treatment given him by Dr. Sharp.

Dr. Sharp does not know that this is being written or published, but the family of Mr. Pritchard think it no more than his due that this much should be said for one who has been the means of restoring to comparative health a loved member of the family. Others had failed, Dr. Sharp has succeeded.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

He was born in Harrisonville, Ohio, received his education in the public schools and Franklin College of that state. Enlisted in Co. E. 15th Ohio Inf. and served two years in the army during the civil war.

At the time of his death he held the appointment of coal oil inspector and member of the board of directors of the Nevada asylum, from Gov. Dockery.

The Fair.

The fair never opened under more favorable auspices. The weather is all that heart could wish, cool and pleasant, no dust, no mud, but just right. There are splendid exhibits of farm products. Fruits and vegetables never appeared to better advantage. The exhibition of poultry was never better and the art display, culinary and floral displays are first class. There are a larger number of racers than ever before and some splendid races are on the program and will be run.

The management deserves great credit for the complete and successful arrangements for the accommodation of all. There can be no doubt about the financial outcome of the fair this year for all concerned.

Why Adds are Read.

An observant person remarks that "the public likes as well to read interesting matter in the advertising columns." There is nothing surprising about this, since the facts which are advertised have a direct personal interest to the public. The advertiser offers to the people only such things as the people need and about the character and price of which they want information. A persistent advertiser is bound to win the attention of all newspaper readers.—Philadelphia Record.
